FROM: Frank J. Filas, Reclamation Engineer 

RE: Field Inspection of September 10, 1986, Thomas Peck & Sons Mining, Nephi Gypsum Mine, PRO/023/011, Juab County, Utah

On September 10, 1986 Dave Wham and I visited the Nephi Gypsum mine where we met and toured the mine site with Tony Peck and Bob Steele. We did not notice any serious problems in the mine area including the north bank of the Salt Creek. Bob Steele was apologetic for the delay in responding to the Division's February 14, 1986 letter of deficiency concerning Nephi Gypsum's MR-1 Permit. He stated that he would get in touch with John Whitehead to resolve the deficiencies.
